PRICE THREE CENTS

158 PERSONS KILLED IN MEXICAN CLASH

WORK BEGINS ON WORLD 'SOCIETY'

Data Is Gathered for "New Nation Association."

EUROPE DOESN'T OPPOSE

"Willing to Trade with Harding," Report Says.

WASHINGTON—(By United Press.)—Preliminary work on the plan for an "association of nations" promised by President-elect Harding, is well along, it was learned here.

As a result of what is now being done, it is expected that when Harding is ready to take up the question, his advisers will be able to give him complete information on these points:

1—How far Europe will go in "scrapping" the Wilson league and building a new one.

2—How many senators will support and how many will oppose his efforts, together with a detailed statement of the shades of opinion existing among Republican and Democratic senators.

VIEW OBTAINED

"Conversations" now going on between certain influential Republicans and persons in foreign capitals, have already developed interesting facts concerning the European attitude towards an entirely new association.

These exchanges have been, of course, entirely unofficial and informal and Harding has nothing to do with them. The information obtained, however, is a much franker expression of foreign views than if it were official.

In certain foreign countries, the inquiries made developed a disposition to trade with Harding. For instance, in reply to the question: "What would be your government's position towards a complete revision of the league covenant, or a substitution of a new charter?" the following question were asked by one foreigner:

"What would be Harding's attitude toward helping us collect our claims against Germany?"

"What would Harding do about Russia?"

"Would Harding consent to modification of certain treaty terms?"

"Would he help the allies enforce the treaty?"

WANT U. S. CO-OPERATION

The whole of a considerable correspondence between certain Americans and their European friends in these countries extending over many weeks, shows a distinct willingness to meet Harding at least half way. Thru it all runs the same idea—that Europe must have American co-operation, and is old isopod to stick at the terms.

While this information is being gathered abroad, other agencies are preparing for Harding an analysis of the domestic situation with regard to the league. Harding regards the election as a popular vote against the Wilson league. But he has to reckon with Root, Taft, and other influential Republicans, who do not want to see the Wilson plan discarded entirely. There are some Republican senators, too, who favor ratification of the Wilson league with strong reservations.

Indications are that Democrats are preparing to negotiate with these Republicans, perhaps at the short session of congress, to ratify the treaty with the Lodge reservations, the Democrats agreeing to vote for them.

100 MEN SEIZED

Arrested in Cleveland as Result of "Cleanup" Order.

CLEVELAND — (By United Press.)—Nearly 100 men were under arrest Tuesday for gambling or violating the prohibition law, following a series of raids Monday night. The raids were the result of Mayor Fitzgerald's order to Chief of Police Smith to "clean up" the city.

Approximately 60 men were taken from a club. Officers smashed down bolted doors guarding the club rooms and captured the men after a sharp fight.

Proprietors of "blind pigs" will be arrested as fast as the evidence can be found, Smith said. A score of them are already under arrest and he expects to secure evidence against several hundred more. A campaign will also be launched against known and suspected crooks, he said.

HEAVY ENROLLMENT IN LIMA NIGHT SCHOOL

With over 400 persons enrolling Monday night at Central and South high schools to study in the fall and winter night schools, attendance records in former years will be broken.

Last year a total of 300 persons were enrolled. This mark was passed by a hundred last night and Wednesday night, when registration will be opened again school officials believe that another 100 will enroll, bringing the total registration to over 500 students.

AMERICANS SEIZED BY TURKS

HOTEL MEN URGED TO CUT PRICES OF BRIDAL SUITES TO ENCOURAGE MATRIMONY

NEW YORK — Hotel proprietors attending the fifth National Hotel Men's Exposition here, will partake of a twenty-five cent meal on Ellis Island this week, on the invitation of Frederick A. Wallis, American commissioner. Spiteful on the part of the hotel men that the island's chef, D. T. Macgowan, could concoct a repast for that sum, and still claim a profit, is said to have prompted the invitation, and also the acceptance.

Edward M. Tierney, chairman of the exposition committee, Tuesday recommended that hostilities "cut the prices of bridal suites, both in order to encourage matrimony and as a part of the general price cutting program."

MYSTERY MAN IN KILLING, CLAIM

Sensation Promised in Murder Trial at Cleveland.

JOYCE HEARING IS BEGUN

Charged with Shooting H. C. Kagi, Auto Salesman.

CLEVELAND — (By Associated Press.)—The trial of John W. Joyce, former downtown saloonkeeper, charged with the murder of Harold C. Kagi, an automobile salesman, opened here Tuesday and is expected to produce some sensational evidence.

Both Joyce and his counsel declared that evidence will show that Joyce did not fire the shot. Identity of a mysterious "third man" who did the shooting, will be revealed, they contend.

Chief Justice W. H. McGannon, of the municipal court, who had been with Joyce and Kagi shortly before the shooting, will be the most important of twenty-nine witnesses subpoenaed by the state.

At a recent meeting of the Women's Civic Association, a resolution was adopted, requesting its four hundred members to attend the trial daily.

HARDING'S VISIT STIRS VILLAGE

President-Elect Quarters in Brownsville Lawyer's Cottage.

POINT ISABEL, Texas — (By United Press.)—Throwing aside the restraints of public life, President-Elect Warren G. Harding got into a soft shirt and baggy trousers Tuesday and went out into the bay to fish. The chief ambition on this trip is to land one of the monster fish, a feat said to be the height of every angler's desire down here.

Tuesday afternoon Harding expects to motor over to Brownsville Country Club for golf. The Harding party, which has been here since Monday night, as the train running from Brownsville jumped the track with all the baggage aboard. There was much clamor, but all was in vain, as nobody around would do anything until daylight.

There is a great bustle and stir in this normally sleepy little fishing village. No quarter spot could have been chosen by Harding as a retreat from the hordes of office seekers than this straggling little village with its low weather-stained shacks on the bare sandy point here at the southern extremity of Texas just six miles from the Mexican border.

Senator and Mrs. Harding are quartered in the roomy summer cottage of R. B. Creager, Brownsville lawyer and personal friend of Harding. The low, green house built on comfortable rambling lines, stands out on the point overlooking the village on one side and the serene bay on the other. Fishing smacks bob at anchor along the beach. A hundred yards from the Creager cottage is the only hotel at Point Isabel, a two-story affair, with raised porches, running all the way around. Pigs and chickens wander about the court yard indifferent to the excitement attending the arrival of the new president of the United States. The narrow gauge railroad connecting the point with Brownsville runs down the main street of the town.

FRED HARRISON BROUGHT TO LIMA BY PEN GUARD AS VICE PROBE WITNESS

Fred Harrison, colored, former Lima saloonist, serving a term in the penitentiary for shooting Dewey Baker on April 30, 1918, at the Marshall House, this city, was brought to Lima Tuesday by Barney Bechtolt, a guard at the Ohio penitentiary, as a witness before the Allen-co grand jury, in the vice probe that is being conducted this week. Guard Bechtolt left late Tuesday for the return trip to Columbus, with Harrison.

PARTY OF RELIEF WORKERS HELD

Fears for Safety of Commission Reported to New York.

EASTERN SITUATION GRAVE

Preparations to Send Others Cancelled on News Receipt.

NEW YORK — (By Associated Press.)—Conditions in Asia Minor and Turkey in Europe are so serious that the near east relief will not run the risk of sacrificing American lives by sending further relief workers to the war-torn areas.

This announcement was made here Tuesday by a national official of the near east relief, following receipt of cables from Constantinople reporting that J. P. Coombs is being held by Turkish Nationalists at Samsoun. Coombs is director of the organization's relief operations in the Samsoun area.

Fear for the safety of other members of Coombs' detachment was also expressed by officers of the near east relief.

Besides Melville Chater, a writer who accompanies Coombs on all his tours of inspection throughout the war areas, the party consists of five Americans, three of whom are women.

At last advices these were quartered at Samsoun and reported safe for the present.

On the strength of an alarmingly cable received at the commission headquarters here the passage of six relief workers who were to have sailed for Constantinople on the Campania Wednesday has been cancelled.

JAMAICA GINGER IS TABOO

Mayor Issues Order Against Its Sale in Soft Drink Places.

Good-bys Jamaica ginger, lemon extract, biters, cough remedies, etc., from soft drink establishments, provided they have a content of more than one-half of one per cent of alcohol.

Such liquids are authorized under the pure food and medicinal act and can be sold in drug stores, groceries, etc., but not as a beverage to be drunk on the premises.

This ruling was laid down for Mayor F. A. Burkhardt by Federal Prohibition Commissioner Scherer, Monday. Some of these liquids, Scherer told Mayor Burkhardt, have an alcoholic content of from 80 to 92 per cent.

Jamaica ginger taken in a raid on soft drink establishments in Xenia by the prohibition commissioner was found to contain 92 per cent alcohol. The distributor was fined a total of \$3,300, and drunkenness in Xenia was broken up.

Acting on the ruling by Scherer, Mayor Burkhardt Tuesday gave orders to Chief of Police Roush to notify owners of soft drink establishments in Lima that the sale of Jamaica ginger, biters, cough remedies, lemon extracts, etc., that come within the provision of the law, as beverages, is taboo.

PROBING CRIME?

Grand Jury Resumes Work, Calling Many Witnesses.

The grand jury reconvened Tuesday for work on what is expected to be a complete investigation of vice and crime in Lima.

Prosecuting Attorney John L. Cable refused to be quoted in connection with work of the grand jury, but witnesses summoned have been mentioned in connection with such a cleanup.

OHIO MAN, ATTACKED BY MADDENED BULL, IS SAVED BY LITTLE DOG

FORT CLINTON, Ohio—A small dog was credited Tuesday with having saved the life of William Benson, 55, who was attacked by a bull here Monday. Benson was hurled to the ground and trampled. Neighbors failed to drive off the maddened animal and the dog jumped into the fight. The dog snatched at the bull and drove it away from Benson, who was hurried from the field. Benson is in a hospital, nursing several broken ribs.

HELD AS SOCIETY GIRL'S SLAYER

Man Arrested in Montana Wanted at Kansas City.

FACES CHARGE OF MURDER

Young Woman Shot to Death on Lonely Road.

KANSAS CITY — (By Associated Press.)—Plans to secure the extradition of Dennis Chester, arrested Monday at Great Falls, Mont., and return him to Kansas City to face a charge of first degree murder for the killing of Miss Florence Barton, Kansas City society girl, who was shot to death on the night of October 2, on a lonely suburban road here, were made by officials Tuesday according to dispatches from Great Falls. Chester denied the charge.

A warrant charging Chester with the murder was issued by the county prosecutor here late Monday on receipt of advices that he had been taken in custody at Great Falls.

Miss Barton, the daughter of a wealthy shoe manufacturer, was shot to death when three men in a motor car drew up beside the automobile in which she and her fiancée, Howard, Winter, were riding. Winter was wounded in the arm. Robbery was believed to have been the motive for the attack.

Winter, according to the police, recognized the photograph of Chester as that of one of the assailants. Winter declared that Chester fired the shots.

DUKE IS DIVORCED

Duchess of Marlborough Granted Decree by Court.

LONDON — (By United Press.)—The Duchess of Marlborough, formerly Miss Consuelo Vanderbilt, Tuesday was granted a divorce decree from the Duke.

Neither of the principals was present in court. Counsel announced to the court that the duke would refuse to return to the duchess in compliance with the decision of con-jugal rights obtained by her on March 11.

Attorneys for the duchess then offered to show that since the duke was ordered to resume his life with her, secret agents had followed him to Paris, where he is alleged to have spent a night in the Hotel Claridge with a woman, they registering as "Monsieur and Madame Spencer." To this, the duke's attorneys entered formal denial. The court granted the formal decree of divorce and ordered the duke to pay the costs of the suit, which was instituted in May.

The duchess was the daughter of the late W. K. Vanderbilt, was married to the duke in New York in 1895. They have two children, the Marquis of Blandford and Lord Ivor Churchill. The former is heir to his father's title, married the Hon. Mary Cadogan on February 17.

9,000 U. S. SOLDIER BODIES SHIPPED

Remains of Men Killed in France Sent Home—All Removed from Germany and Luxembourg—Will Soon be Taken from Belgium

PARIS.—(By Associated Press.)—Nearly nine thousand bodies of American soldiers who died or were killed in France during the war have been shipped to the United States and turned over to their nearest relatives, and 1,800 more await shipment at French ports, it is announced by the United States graves registration service. The work of removing the bodies of fallen Americans is expected to be completed by next summer.

Nearly 60 per cent of all the bodies of American officers and enlisted men buried in French soil will be returned to the United States, according to recent estimates.

Removal of bodies from occupied areas in Germany and Luxembourg has just been completed and all of them were sent to America. Work-ing forces will begin operations in Belgium next month and from cemeteries in that country 1,031 bodies will be removed. The work of exhuming bodies in the Brest, Bordeaux and St. Nazaire areas has been completed and now the efforts of the Americans will be concentrated on the war zone. It is not probable that the first of the uniform headstones recently decided upon by the war memorials council will be set in the four permanent cemeteries until next autumn.

ARMY RECRUITING SPEEDED UP

Full Strength of Second Division at Once Ordered.

WASHINGTON.—(By Associated Press.)—Telegraphic orders were sent Tuesday to the army recruiting stations to recruit the second division to its full strength immediately. It was explained at the war department that under the provisions of the national defense act one division of the army must be kept at full strength and that the second division had been selected by the general staff as the unit to be maintained at full strength.

The division, which is stationed at Camp Travis, Texas, is six thousand short of its full strength and the war department said that the recruiting service never before in time of peace had been given a similar task. Heretofore recruits for the second division have been drawn from the states of Texas and Oklahoma, but under the new order they will be taken from any place in the country.

Major General James G. Harbord, who was General Pershing's first chief of staff in France, commands the division.

MORTON RESIGNS

Leaves Merchants' Association to Go with Motor Co.

Morton, who is given credit for Lima Merchants' Association, tendered his resignation to the board of directors at its meeting Tuesday, effective December 31. The resignation was accepted.

Morton, who is given credit for building up the best credit rating department in the state and getting the association on a thoroughly successful basis, will become affiliated with the Lima Motor Car Co. after the first of the year. He will become office and service manager of that organization.

Joe Hartline is manager of the company, which will take the new motor car building on W. Market-st. beyond Metcalf-st. The company sells Peerless and Reo automobiles and White trucks. Morton will have charge of the enlarged service department and storage, which officers of the company say will be one of the biggest in this part of the state.

GENERAL STRIKE ALSO LOOMS

Government Rushes Troops in Attempt to Quell Fighting.

MEXICO CITY — (By United Press.)—One hundred fifty-eight lives have been lost to date in fighting between Socialists and liberals in the state of Yucatan.

The government has rushed 600 troops to quell fighting forced by Socialists, who attacked Merida, the capital, Motul, and Teketo.

Socialist fighters, crudely organized and poorly outfitted, were said to rush to the attack, shouting: "Viva la republica soviet."

GENERAL STRIKE URGED

Coincidentally with the socialist fighting, agitation for a general strike in Mexico, was pressed by communist societies.

Government officials Tuesday admitted the strike situation had assumed serious proportions. A meeting called Tuesday by the "Mexican Communist Federation of the Proletariat" was to vote on all workers in the federal district, including Mexico City, joining a general strike.

The strike would be supported by all workers in the federal district, including Mexico City, joining a general strike. The strike would be supported by all workers in the federal district, including Mexico City, joining a general strike.

In addition to pitched fighting there has been individual attacks, terrorizing inhabitants.

Foreign consuls at Merida, have sent a general demand to state officials that order be restored by the use of federal troops. The government responded by sending 600 soldiers to keep the factions apart.

The Socialists are powerful in Yucatan, where there are extensive industries.

BIG FIGHT TO BE STAGED MONDAY

McHenry and Wilson Will Meet Again in Main Co.

LEGION ARRANGES CONTEST

Card Approved by Boxing Commission Monday Night.

Coming as a surprise to Lima fight fans was the announcement Tuesday morning that the local post of the American Legion will stage another boxing carnival next Monday night at Memorial Hall.

Harry (Happy) McHenry, of Montpelier, Ind., will again box Red Wilson, Albany, N. Y., in a 12-round bout.

These two fighters battled here at the last Legion fight and it seemed almost a draw until 15 seconds before the end of the fight when a fast right to the jaw by Wilson floored the Hoosier youth for the count.

It was a good fight and McHenry knew it. They were evenly matched and after the fight the losing battler showed his pluck and asked that he be matched with the little Italian again.

Last night at Canton, McHenry shaded Eddie Allen in a ten round go. At Detroit last Friday Wilson knocked out Ralph Greeman, of Los Angeles, in the sixth round of a ten round bout. It was his third consecutive knockout in ten days, his last two being McHenry and Red Curry, Chicago.

Preliminary to the main bout, Charley Rogers, an Indian fighting from the same stable as Wilson and managed by Charles H. Best, will fight Harry "Pig Iron" Turner, of this city.

Not much has been heard of Turner recently, but reports current at Legion fight headquarters are that he is in good shape and will put up a real fight for the Indian.

In a six-round preliminary, Patty Phalen and Battling Decker, both South Lima boys, will fight. They are speedy and expect to battle for south side honors.

The card was approved by the boxing commission Monday night, pending the arrival of Wilson's contract.

MEN AND MATTERS

Joseph A. Clem, Service Director in Sidney, Shelby Co., came to Lima Tuesday, to attend the funeral of Mrs. Emmett E. Clem, Shawnee, Ind., held Tuesday afternoon. Mrs. Clem was a sister-in-law of the Sidney visitor. Funeral services were held from the Epworth church.

Announcement has been made that the Deisel-Wemmer Co., will erect a two-story brick building on E. Main-st in Van Wert, to enlarge its cigar factory operations in the city. The entire new building will be used by the company, the first floor being designed for storage purposes, the second floor for a work shop and the basement for tobacco sweating.

KILLIAN REAPPOINTED.

The human society has appointed Frank Killian who has been serving in this capacity, to be humane officer for the next year. The appointment has been approved by probate court and Killian will continue to serve in his present position.

AUDITOR WOULD HAVE ENGINEER COST CHARGED TO RAILWAY FRANCHISE

In a report prepared to be presented to council, City Auditor D. L. Rupert informs the local legislative body that the expense of valuation engineers Beeman, Thomas & Company is now being paid from the general fund of the city, which is maintained by general taxation. "Inasmuch," the Auditor holds, "as this expense is incurred by the city in securing a service-at-cost street railway franchise, it would appear that same ultimately should be charged back to the new franchise and I would suggest that provision be made to include the expense in the terms of the franchise ordinance, so that the general fund will be reimbursed on the account."

TO RECEIVE BIDS WEDNESDAY FOR WALKS

Service Director Elmer McClain will receive bids Wednesday for the construction of new sidewalks in various parts of the city, in front of properties where the owners have neglected or refused to comply with official notices ordering same to be built.

City Engineer Vaughn Miller stated Tuesday that the estimated cost of the construction contemplated, which will be made a lien against the properties affected, will total between \$8,000 and \$9,000, but that not all of the work can be contracted, for the reason that the sidewalk fund has available only \$3,000.

It is anticipated that at least part of the work expected to be awarded Wednesday will be completed before severe weather sets in.

WILL IS PROBATED.

John E. Crider, who recently died, gave all the furniture and household goods in his former home, 117 W. Elm-st, to his widow, Sarah Crider. The will, which has been probated in court, says he had previously cared for her in a financial way. Proceeds of lot 105 and 106 in the original plat of Lima, are to be sold and one-half given to Mrs. M. L. Mayer, Lima, and the remainder to the children of Crider's deceased son, Albert.

SALE IS COMPLETED.

The Spencer-Up Carnegie Library association has completed the sale of its property in Spencerville to Amor L. Gamble, who paid \$735 for the same. It is a black walnut lumber on the land was excepted. Joseph Book was vice president of the association and Charles S. Fryer, secretary.

TRIALS POSTPONED

CITY WINS DELAY IN RATE CASE

Utilities Commission to Check Up Ohio Electric Valuation.

Claiming that valuation on certain items of property represented in its holdings in Lima are inflated and that the valuation established by the Ohio Electric as a basis for a service-at-cost franchise is untenable, Mayor F. A. Burkhardt, City Solicitor Garling and assistant Judge Quail, won a victory before the state utilities commission at Columbus Monday, in opposing the request of the O. E. for an increased rate for lighting and power.

The utilities company asked for a new schedule of rates until a permanent franchise can be worked out. Objections interposed by the representatives of the city to the employment of the O. E. made valuation were quashed up by argument that prevailed with the commission and it was decided that the state commission experts take up the company's valuation and thoroughly check it, arriving at a valuation as a basis from which to consider rates.

The city is to be given 30 days time to make objection to the finding of the commission in the matter of an appraisal. Mayor Burkhardt stated Tuesday that the O. E. presented a valuation of \$1,300,000 but expressed the belief that the appraisal that will probably be decided upon by the state commission experts will likely be around the \$1,000,000 mark.

The city officials are opposing an increase in rates at this time, for the reason that negotiations are under way for a permanent franchise.

Increased Gas Rate— You Women, Settle This!

Women of Columbus, do you realize that the greatest convenience you have—natural gas for cooking, hot water heating and lighting—is likely to be seriously interfered with now and eventually discontinued?

Do you realize that we cannot, under present conditions, supply you with gas you will need this winter, and that many of you will not have enough gas for your cooking alone?

Do you realize that these conditions have been growing upon us for two or three years past, and that you have not taken any steps whatever to provide yourselves against the emergency?

You Must Realize This

You must realize that we have been calling attention to this for months. You must realize that if Columbus households fail to get enough gas for cooking in cold weather, the fault lies solely with the people of Columbus.

We have asked you to make it possible for us to supply you with gas. Thus far, you have taken no action whatever, and the time is right at hand when cold weather may be expected.

Who Will Suffer?

You women will be the greatest sufferers if gas fails. You will have more work, you will have more expense, you will be fortunate if you can obtain the devices for burning other fuel.

Are you going to let this matter go by default? Aren't you interested enough to tell the men of Columbus what you want? Do you expect your City Council to act without knowing what you want it to do?

All in Your Hands

The whole matter rests in your hands. If you are permitting yourselves to be misled by people who say that there is plenty of gas—if you are looking for an artificial plant that cannot be built for a year or more—if you think that some miracle is going to happen that will take care of your needs—you may have a rude awakening, and that awakening will come with the first cold weather.

On the other hand, if you will make up your minds to get at this thing and to settle it squarely and fairly—fairly to us as well as to yourselves—you may enjoy the blessings of natural gas for several years to come.

What You Must Do

You will have to make it possible for us to secure more gas. You will have to make the supply you now get go further. You will have to use those appliances that will practically put the natural gas business upon an artificial gas basis.

This matter has been before you long enough for your decision. Every day you delay makes it more difficult to supply you this winter. Every day you delay makes it necessary for a more strenuous effort. Every day you delay reduces the chances of either finding or the purchasing of more gas.

No Middle Course

What you can do is to make up your own minds and let your Council know what you have decided. If you decide against paying an increased gas rate, we strongly urge you to get your houses equipped to burn other fuel.

If you decide to pay the increased gas rate, authorize your Council to go ahead. There is no middle course. If you sit still, you will be the principal sufferer.

Call on, write or telephone your Councilmen and tell them what you want them to do.

UTILITIES MEET AT WASHINGTON

State Commissioners Open 32nd Annual Convention.

RATE CONFLICT IS FACED

Regulation of Transportation Schedules to Come Up.

WASHINGTON — (By Associated Press) — The thirty-second annual convention of the National Association of Railway and Utilities Commissioners began here Tuesday at the interstate commerce commission. The association embraces all the regulatory commissions of the country, every state being represented with the exception of Delaware, as well as Alaska, Hawaii, the Philippine islands and the District of Columbia.

Chairman Clark, of the commission, opened the session which is to last four days with an address of welcome. Tuesday's program also called for the annual address of Walter A. Shaw, of the Illinois Public Utilities commission, president of the association.

Conflict between state and federal authority in the regulation of interstate transportation rates is expected

to play an important part in the deliberations of the convention. Efforts by the railroads to make effective on traffic within states the advanced rates granted by the federal commission for interstate traffic have been contested by a number of the state regulatory bodies.

It can be done

When the dentist has cleaned your teeth and polished them, how well they look, and how you wish they would stay that way!

They will stay that way a long time if you will use Pebecco Tooth Paste regularly and faithfully.

Everyone should visit the dentist at regular intervals, if only as a matter of precaution.

What the dentist will say and

do after inspecting your teeth will depend largely on the kind of treatment you have given your teeth between visits.

Along this line, there is nothing more important than a clean mouth. Unless they are kept clean, your teeth cannot remain healthy. Buy a tube of Pebecco Tooth Paste when next you go near a drug store. You know your teeth are clean when you have used Pebecco.

EVERY WOMAN CAN HAVE A FAIR COMPLEXION

If your skin is pale and colorless, if you have pimples, blotches, blackheads, liver spots, yellow or sallow skin—then it will pay every woman to go to her nearest druggist and obtain a package of Mother Nature's gentle tonic, the famous Bulgarian Blood Tea. This pure all-herb preparation taken once or twice a week just before bedtime will eliminate the body poisons from the system and cause the blood stream to surge with rich pure blood. Bulgarian Blood Tea regulates the bowels, stimulates the liver, flushes the kidneys, aids digestion and sweetens the stomach. Bulgarian Blood Tea taken regularly hot at bedtime kills colds, guards against influenza and pneumonia. Sold by all druggists and grocers everywhere.

A Square Meal and A Square Deal

Here's a square deal for the people who can't eat a square meal without after-pain or distress.

Take one, or if your suffering is intense, two tablets with or after meals and at the end of ten days if you can't eat a square meal without distress go and get your money back.

That's where the square deal comes in. But Mi-O-Na is really a stomach up-builder of great merit.

The quick and positive action of Mi-O-Na on the stomach in case of gas, waterbrash, sour stomach and heartburn is worth a lot of money to any sufferer.

HAD TO HOLD TO SIDE OF BED UPON RISING EVERY MORNING

Back hurt so bad couldn't straighten up till he had walked round a while. Kidneys caused the trouble, but Dr. Chenoweth's medicine cured them right.

"Many a morning I've had to hold to the side of the bed in order to get up, then walk round for a while before I could straighten up," said Mr. Albert Logan, a farmer living near Athens, Ohio.

"For five years I've been in miserable health. My kidneys were weak and I'd be up five and six times during the night from them. I had terrible pains in my back. My liver was lazy, and I'd get so dizzy sometimes I'd have to stop a few

minutes till it passed off. My stomach was also out of order and often swelled up like an army balloon from the gas in it. I was constipated and so nervous I couldn't sleep much.

"Things are different now, tho, for I jump right out of bed into my clothes, and ready for a big breakfast. Don't have to get up during the night a single time; bowels acting regularly; no more dizzy spells, and I sleep like a log. All this change was brought on by taking Dr. Chenoweth's, and I think it the greatest medicine I ever saw.

All druggists now sell Dr. Chenoweth's and it is being especially introduced in Lima by Baldwin's Central Drug Store, Corner Main and High-sts. Adv.

DADAISTS MERRY AT FUNERAL

Strange Notices Appear When New Cult Head's Wife Dies.

BERLIN — Futurism and Dadaism in funeral styles have arrived. A protest went up when the jolting autohearse supplanted the slow-moving horses in hurrying the corpse to the grave. But how would you like to be buried according to the rites of the Great God Da-Da? Germany experienced its first dadaistic funeral when the head of this art cult buried his wife.

"Under blue skies, on a lovely sunny day in Bethany I have kissed the brow of my dear wife! She went to sleep at a quarter past two today! Death is a fairy tale for children, but it establishes a dadaistic fact! The Supreme Dada, 12 Birkbusch Strasse, Stoglitz. We thank our mother. She bore work and pain for us as no other woman on earth. Hans, Theo, Berla, Fritz, Bader." The above notice among the obituaries of the Stoglitz Anzeiger created a sensation in this suburb of Berlin, according to the Vorwaerts.

The following day the Stoglitz Anzeiger ran a correction, under the heading "Dadaism and Death." "The Supreme Dada writes us: 'You did a great injustice to my son, Theo, yesterday in the death notice. In that you changed his sex to that of a girl. He likes the girls all right, but he doesn't believe it necessary to change his sex. He prefers to continue to be called Theo and not Theoa.'"

The Supreme Dada took advantage of the correction to secure a little more advertising for his wife's funeral. "The burial will take place Sunday at 2 o'clock," he continued. "The parish Stoglitz will bear the cost of the funeral. A clergyman will speak only in case one should care to do so without fee. Otherwise the Supreme Dada alone will explain what a dadaistic fact is and why a funeral is especially no place to be and."

"One-half Stoglitz was at the funeral, thanks to the good press agenting of the Supreme Dada," says Vorwaerts. "The Supreme Dada preached. The thousands of listeners crowded around to hear 'Da-da-da-da is life.' That word Dada is finally explainable."

"The Supreme Dada couldn't mourn," explains Germania, the organ of Catholicism, "because death is no occasion for grief. There is no death, because matter lives on thru its own forces. The large crowd in tense silence attempted to follow the somewhat confused talk of the Supreme Dada, which he delivered with a smiling countenance. He left the cemetery in a jolly, almost hilarious mood. The crowd was evidently keenly disappointed that the dadaistic ceremonies did not take on a more futuristic and picturesque tone."

MEXICANS OPPOSE "FREE PORT" IDEA

MEXICO CITY, Mexico — Great opposition has developed in the Mexican Congress to President Adolfo de la Huerta's decree establishing three "free ports," Puerto Mexico, Salina Cruz and Guaymas. Members of Congress held that the President exceeded his authority in passing the decree and that the establishing of the "free ports" was illegal.

A FIRESIDE COMPANION

On cool evenings, when you sit by the fire and enjoy rest after a hard day's work, a pleasant companion is the thought that a part of your earnings will be put in your savings account; that the sacrifices of today will insure to your benefit tomorrow. Then there will be the evening time of life, when you will sit by the fire more than you do now. When that time comes your savings account will be not only a pleasant companion but a very necessary one. Have your savings where you know the rate is five per cent, the security one hundred per cent, and the principle available when sickness, old age or other emergency makes it necessary of important for use.

650 STRICKEN IN SALEM SCOURGE

Typhoid Continues to Spread Despite War on Disease.

HOSPITALS TAXED TO LIMIT

50 New Cases in Past 24 Hours — More Nurses Sought.

ALLIANCE, O. — (By Associated Press) — A careful survey of the situation made at Salem, Monday evening, brings the total number of persons stricken with typhoid fever

in the scourge at that place up to 650 well defined cases. Others to a large number are ill suffering from a mild form of the disease.

The number of patients has taxed hospital facilities in Salem to the limit, and Tuesday several will be taken to the St. Elizabeth hospital at Youngstown.

Those who are investigating conditions in Salem are inclined to the belief that the scourge is due to some leakage into the water system from some obscure source.

ASSISTANCE ASKED.

M. McFarland, secretary of the

Manufacturers' Association of Salem, has been placed in charge and with a number of assistants, is giving his entire time to trying to care for those who have been stricken with the scourge. Additional nurses have been called for, the number in attendance being inadequate.

BUDGET MADE UP BY DEMOCRATS

U. S. Estimates Prepared for Republican Congress.

SHARP CHANGES EXPECTED

Situation Resembles That of Eight Years Ago.

WASHINGTON — (By Associated Press) — Estimates upon which congress will make appropriations for the first fiscal year of the new Republican administration are now being prepared by the various government departments under the direction of Democratic cabinet members and in accord with the policies of the Wilson administration. The estimates will be submitted to congress at the opening of the next session on December 6. Since the Republicans have a majority in both the senate and house, sharp changes are expected to be made in most of the estimates under revision plans which Republican congressional leaders are expected to work out in co-operation with other leaders of the Harding administration which takes office on March 4.

SITUATION DIFFERENT

The present political situation with regard to the annual appropriations is similar to that which obtained eight years ago after the first election of Woodrow Wilson, but the economic situation in the country was vastly different. At that time the Republicans were in control of the legislative branches of the government under President Taft, but the Democrats had a majority in both the senate and house.

ARMY AND NAVY CHESTS

The forthcoming estimates for the war department will be based upon the requirements of an army the size of which already has been fixed by the Republican congress, but the naval estimates to be submitted next month will be based on the Democratic program. Secretary Daniels had repeatedly said that unless the United States became a member of the league of nations, it must maintain the most powerful navy in the world.

Under the program authorized in 1916, the government now is constructing five great battle cruisers and more than that number of super-dreadnaughts and the forthcoming naval estimate is expected not only to include appropriations for carrying on this work, but also recommendations for additional war craft. Estimates for all of the government departments are expected to exceed four billions of dollars, this

total including amounts for refunding portions of the public debt falling due during the next fiscal year. The estimates for the present fiscal year exceeded six billion dollars, but these figures were reduced something like two billion dollars. Whether all of the annual supply measures will be completed at the next and final session of the sixtieth congress remains to be determined. President-elect Harding is expected to call a special session of the new congress soon after he takes office on March 4, and it may be that some of the appropriation bills will go over to the special session.

POLICE FORCE MAY QUIT, HE HAS NO REAL HOUSE

ESSEX FELLS, N. J. — The police force of this village has threatened to resign unless he can find a "real livable house" in which to make his home when off duty. Samuel Mullins is his name. He is chief of police, sergeant and patrolman. By day he is expected to protect the village from stray cows and by night from prowling robbers, but in his spare time he has no satisfactory home because of the housing shortage.

Mullins formerly was only half the police force but his partner, Henry Clay Skidmore, resigned October 1, because he could not find suitable lodgings.

The borough council intends to adopt a resolution providing for the erection of two houses. Then the city fathers will double the present size of the police force.

cannot hope ever to become strong and well again unless they have plenty of good, rich, red blood of the kind that organic iron-Nuxated Iron helps make. Nuxated Iron is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is just as it comes from the action of strong acids on iron filings. Nuxated Iron does not injure the teeth nor upset the stomach, it is an entirely different thing from ordinary metallic iron. It quickly helps make rich, red blood, revitalizes worn-out, exhausted nerves and gives you a new strength and energy. Over 4,000,000 people annually are using it. For sale by all druggists. CLEVELAND BAKING CO.

IS ROBBED OF \$6,000

CLEVELAND—Two hold-up men robbed the General Baking company of \$6,000 in cash here late Monday afternoon, when the offices were about to close. The men were dressed in the white garments of employees and gained entrance to the office by saying they were bakery workers.

Once inside, they forced Mrs. Austin Blatt, cashier, to give up the money. Two other employees came in and were forced to enter a small room. The bandits then walked from the place. Police were unable to find any trace of the pair.

CURED HIS RHEUMATISM!

"I am eighty-three years old and I doctored for rheumatism ever since I came out of the army, over 20 years ago. Like many others I spent money freely for so-called 'cures' and I have read about 'Cure Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease, or write all day with comfort. Friends are surprised at the change. You might just as well attempt to put out a fire with oil as try to get rid of your rheumatism, neuritis and like complaints by taking treatment supposed to drive 'Cure Acid' out of your blood and body. It took Mr. Ashelman fifty years to get rid of the truth. He learned how to get rid of the true cause of his rheumatism, other disorders and recover his strength from 'The Inner Mysteria,' now being distributed free by an authority who devoted over twenty years to the scientific study of this trouble. If any reader of The News-Times-Democrat wishes 'The Inner Mysteria' of Rheumatism, Neuritis, etc., overlooked by doctors and scientists for centuries past, simply send a post card or letter to H. J. Clearwater, No. 408 N. Street, Hallowell, Maine. Send now, let us forget! If not a sufferer, cut out this notice and land this good news and opportunity to some afflicted friend. All who send will receive it by return mail without any charge whatever.—Adv.

YOUR NAME

VARIOUS — Multibus, Woodus,
Woods, Lufus, Loris,
RACIAL ORIGIN—English.
SOURCE—Place of Residence.
The existence of the word "house"
as a family name is paradoxical. It
is one of the last words in the Eng-
lish language which one would ex-
pect to develop into a family name;
for family names of this class, origi-
nally descriptive of their bear-
ers' place of residence, naturally
were selected from some unusual
characteristic. Nothing, appar-
ently, could be more usual than res-
idence in a house. How then, did the
word develop into a family name?
The answer lies in this, the word
"house" was not used in the speech
of the medieval English to denote
an ordinary dwelling place, but
rather what we would call today a
manor, an unusually large build-
ing, an unduly important one or
one devoted to some special purpose.
The variations of this family name
explain this further. The name Mal-
thus, for instance, is simply a cor-
ruption of "malt-house." Likewise
Woodus is "wood-house," and the
name of Wood is an obvious cor-
ruption of a further corruption of
the name "house" which was "house-
hold" and "household" is a corrupted
spelling of "house."
"The house," the "malt house,"
etc., were just the sort of landmarks
which local population would as-
sociate with individuals living
in and near them. In the end,
the word "house" only the free-
holders owned and lived in houses. The
nobility and their followings were
quartered in castles and the bulk of
the common people were slaves of
the soil and had little better than
huts.

HARDING AND "A" LEAGUE

ANY doubt that may have existed in the
mind of anyone as to President-elect
Warren G. Harding favoring a league of na-
tions, or an association of some sort, has been
dispelled by Mr. Harding himself in a state-
ment made shortly after his election.

Taking the result of the elections as a pos-
itive mandate from the people for the scrapping
of the "Wilson League" Harding is proceeding
to lay plans for the formation of an associa-
tion of nations, but before announcing definite
policies along that line he will consult with
leading men of America, Republicans and
Democrats, he says.

The round table man will very likely be
adopted, but nothing of a positive character is
to be expected until spring, at least. The first
pronouncement of the President-elect upon
the question of an international association
has put to flight, apparently, any possibility of
a hearkening to the wishes of Johnson and
Borah and other "irreconcilables."

If press reports from France are to be be-
lieved in their entirety, the attitude of the
French government toward the existing
League of Nations is a puzzle. Since the elec-
tion in the United States spoke loudly against
the Paris covenant, it may be quite possible
that the French position is a case of "politics."
At any rate, the French seem to be quite will-
ing that a new plan be adopted. Maybe the
present covenant is freighted with provisions
too strong in favor of the protection of weaker
nations, to suit France, England, Italy and
Japan. However, it is quite apparent that they
will insist upon an association that is designed
to prevent war.

PRESIDING JUDGES

AN unexpected result of the election in Al-
len-co last week is that in the next elec-
tion, two years hence, the Democrats will have
more presiding judges than the Republicans,
altho the G. O. P. swept into office almost ev-
ery candidate on the ticket.

Despite the fact that Senator Harding car-
ried Allen-co, the Democratic candidate for
Governor, A. V. Donahey was given a plurality
in this county, winning out over his opponents
in 28 of the 45 precincts in the county, outside
Lima. When the dimensions of the Republican
landslide were contemplated, before an anal-
ysis was made of the vote by precincts, Demo-
cratic members of the Board of Deputy State
Supervisors of Elections anticipated that their
party would have fewer presiding judges in the
next election than heretofore.

But the unexpected is the situation. In
fact, in the next election, the Democrats will
have a greater number of presiding judges
than during the past two years, as A. V. Dona-
hey carried more precincts in the territory out-
side Lima than did Governor Cox when he was
elected the third time two years ago. In the
city the presiding judges are chosen by agree-
ment or by lot, but outside the city the presid-
ing judges are designated by law from the
party whose candidate for Governor received the
highest number of votes in the election next
preceding.

GENEVA'S BIG EVENT

THE City of Geneva, in Switzerland, is in
the international limelight at this pres-
ent moment, and the glare is intensified as No-
vember the fifteenth approaches. On that day
the first plenary meeting of the League of Na-
tions Assembly will open in the Palace, a for-
mer hotel, which has been bought and now is
controlled by the League. Public interest, ev-
en in America which is not to be represented
at Geneva, will center about this gathering in
the beautiful Swiss city. More than three
thousand persons, directly associated with
some phase of the League of Nations, will par-
ticipate in the forthcoming conference. From
the moment the gavel falls, summoning the
members of the Assembly, representing fifty-
two nations, a new epoch will be ushered in for
the universe.

From November the fifteenth on, there
will be the formal start of the League to dom-
inate the lives of many nations and millions of
people. The Assembly provides the first actu-
ally functioning organization in the world,
wherein so many countries have met about a
common conference table with the one purpose
in mind of ironing out many problems and ad-
vising upon matters pertaining to the welfare
of civilization.

One of the distinguishing features of this
plenary sitting will be the presence of famous
world leaders, such as Premier Lloyd George,
probably President McMillan of France, the
Italian, Japanese and other statesmen, all beat
upon looking in upon the proceedings.

In a definite manner this event will take
rank with great world occasions. It surely
will mark the nearest approach to "peace on
earth, good will toward men," that this busy
old universe, battle scarred and wearied from
exposure to wars, ever has seen. Students of
the League will understand, of course, that the
Assembly within its own prescribed rights,
holds no power of decision. It is a debating
arena where vexatious problems are discussed
and threshed out. The pity of the whole thing
is that when this meeting opens there will be
no one there officially from the United States.
With all of our participation in universal af-
fairs, at the very moment when the greatest
agency yet devised is to begin to function,
America stands on the outside.

THE RED CROSS ROLL CALL

ANOTHER Red Cross roll call for the pur-
pose of enlisting men and women in this
great mercy organization is here. Those who
desire to assist in the humanitarian work this
agency is doing have the opportunity to con-
tribute a small amount, the aggregate in the
country making up the working capital for an-
other year to a great extent.

Everyone knows of the work the Red
Cross has done and is still doing for suffering
humanity. It is little enough to give you
small sum for a membership and thus become
a sponsor in a slight degree for the world-wid-
relief it performs.

TODAY'S HEALTH HINTS

By William Brady, M. D.

RIKKEHEADS AND PIMPLES

In my twelve years' experience in
teaching newspaper readers how to
keep well or even better I have
made some momentous discoveries.
My latest discovery is that when the
average young woman asks what is
good for her complexion she means
blackheads and pimples, the very
familiar skin trouble known to doc-
tors as acne. It took me several
years to find that out, which prob-
ably shows how hard a plain doctor
can be when he attempts to pass as
an all-around medical authority.

Any number of well known pos-
itives are good for blackheads and
pimples, that is, they will take it
out in a short time, thanks to the
action of potash, or the bromide,
they contain. Jodides and iodine are
notorious producers of acne.
The ancient quacks used to turn this
to their own advantage by intimat-
ing that the skin eruption showed
that the dope was "driving out im-
purities," and there are still a few
people who solemnly accept this flap-
doodle and keep right on buying the
"blood purifier" or "nerve tonic."

Persons whose occupation exposes
them to tar or oils are likely to have
one, pimples or boils, from inclusion
of the mouths of the oil ducts of the
skin.

Boys and girls from the age of
thirteen to nineteen years are par-
ticularly subject to acne, probably be-
cause of the natural psychological
development or rapid growth of the
sebaceous or oil glands at that age.

Diet has practically nothing to do
with the question of blackheads or
pimples. Nor has any relation
with imaginary "poor blood," nor
is anyone entitled to intimate that
this skin condition is in any man-
ner influenced by the victim's mor-
ality or immorality.

For ordinary blackheads, and for
the condition sometimes termed "en-
larged pores," and for an excessive
oiliness of the skin of the face, this
lotion may be applied each night, fol-

lowing a prolonged hot bathing and
exposure of blackheads by gentle
pressure with the fingers covered
with a clean cloth.

"More short paragraphs" howls
one of our readers. All right, here's
a short one.

Can't you be a good man and
drink in the next world? It might be well
to call Brother Anderson's attention
to this.

When there is redness of the nose
or a tendency toward acne rosacea
("milk blossoms") a more astringent
lotion is advisable.

Zinc sulphate 1 dram
Rose water 4 ozs
Sulphurated potassium 1 dram
This is to be applied over night, af-
ter a prolonged hot bathing.

The pimples and boils about the
hands, arms and face of machinists
and others exposed to oil are caused
by infection conveyed in the oil or
cutting mixture from one man to an-
other and by uncleanness.

The Best Cough Syrup is Home-made.

Here's an easy way to cure a cough, and
get the best cough remedy
you ever tried.

You've probably heard of this well-
known plan of making cough syrup at
home. But have you ever used it?
When you do, you will understand why
thousands of families, the world over,
feel that they could hardly leave home
without it. It's simple and cheap, but
the way it takes hold of a cough will
quickly earn it a permanent place in
your home.

Into a pint bottle, pour 2 1/2 ounces of
Piney; then add 1/2 pint of purified sugar
syrup to fill up the bottle. Or, if desired,
use clover honey, or corn
syrup instead of sugar syrup. Either
way, it tastes good, never spoils, and
gives you a full pint of better cough
remedy than you could buy ready-made
for three times its cost.

It is really wonderful how quickly
this home-made remedy conquers a
cough—usually in 24 hours or less. It
goes to the source of the trouble, every
passage leading to the lungs, and right
cough. It's the phlegm that's the mem-
ber in, and gives almost immediate re-
lief. Splendid for throat trouble, house-
hold, croup, bronchitis and bronchial
asthma.

To avoid disappointment ask your
druggist for "2 1/2 ounces of Piney" with
directions, and don't accept anything
else. From start to finish, you should be sat-
isfied or your money refunded. The Piney
Co., 11 E. Wayne, Ind. Ad.

Spread of Anthrax. Fatal Disease, Charged to Shaving Brush.

"Don't buy a shaving brush made of horse hair; it may give you anthrax, an infectious disease which is more frequently fatal than not. This is the gist of a warning issued by the Ohio state department of health, following receipt of word from federal authorities that infected horse hair brushes have been distributed over the country.

Illinois health authorities have reported to the Ohio department a case of anthrax caused by an infected brush in that state. Tracing of other brushes in the same lot showed that Ohio is one of the states into which they were sent.

The notice received by Ohio authorities from the United States department of Agriculture contains the information that it is the consensus of expert opinion that shaving brush anthrax is contracted only when the shaving brush is made of horse hair. Congress will be asked to prohibit the use of horse hair in the manufacture of shaving brushes.

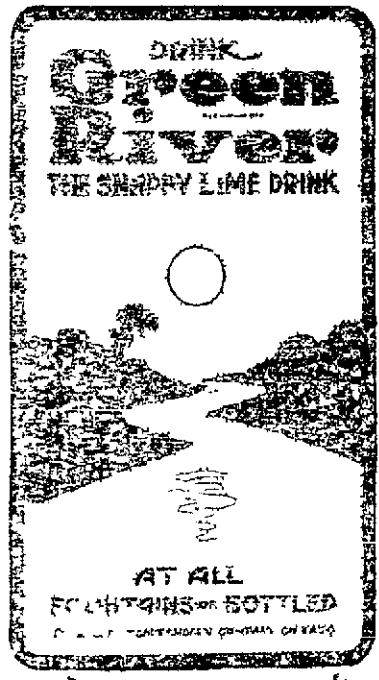

The view is taken that to prevent horse hair brushes now on the market from being placed in use, the only thing that can be done is to appeal to the public to not buy them.

Anthrax, according to state health authorities is a disease more common in animals than in human beings, but easily transmitted to man thru horse hair brushes and other animal material.

**MEXICANS SEEK TO
PROTECT THEIR TRADE**

MEXICO CITY, Mexico. Discussing Mexico's efforts to build trade with Cuba, the Bulletin Finanziero y Minero asserts that American merchants have been playing the trick of buying Mexican goods¹ and selling them in Cuba as American goods. The Bulletin says:

Our dealers should negotiate directly with the dealers in Cuba thus making certain that our products are sold under the Mexican trade marks, for it is well known that many American merchants buy our goods and after exporting them to the United States re-export them as American goods to Cuba and many other Latin-American countries.

GREEK LINES GIVE GRACEFUL DIGNITY TO EVENING GOWN

By ELOISE

There is a tendency towards things Grecian this season. Long waists which hint strongly of the Grecian tunic and straight, graceful lines which give dignity and grandeur to gowns are very fashionable. Many frocks have been inspired by graceful Grecian vases and urns and those frocks which are not frilly and fluffily youthful are sure to be patterned after the severe beauty of the ancient Greek costumes. Evening gowns and dress gowns as well show this tendency, but perhaps the formal evening and dinner gowns more than any other.

This very beautiful evening gown is made of white satin over which is hung a beaded crystal tunic in lovely long lines. The bodice or tunic is sleeveless and cut in a V-shape both front and back. A sash of flame colored chiffon, perhaps for the purpose of warding off the cool beauty of the gown forms a low classical waistline. Then a cluster of richly shaded flowers finishes the effect which is superlative adaptation of Greek beauty and dignity.

A GREAT PICTURE Don't Miss It

Tonight and tomorrow will be your last opportunity to see "The Virgin of Stamboul." This picture has enjoyed extraordinary popularity during the past three days and you will hardly wish to miss it. Also you will want to remember that this picture is but a part of the program for Harold Lloyd is also in evidence in his funniest picture yet, "Get Out and Get Under," which is a veritable scream. When The Lyric announced last Sunday that it proposed to put on the biggest, best and most expensive program ever offered in Lima, some were skeptical. But the verdict of the thousands who saw this program on Sunday and Monday is that it is simply great. Too much may not be said of Lloyd as a fun maker. There is just this to say, if you enjoy a laugh, if you love to have your whole body quiver with merriment like a bowl of jelly. If you want to forget corns, automobile expense, the high cost of living and a few other things when tend to make life unbearable, see this picture.

And, don't forget the Lyric Symphony orchestra, for if you really enjoy good music, this feature alone will pay you for your time and trouble. You don't have to ask where the Lyric is—just look for the sign.

Mrs. M. U. Basinger, W. Spring-st., extended the hospitality of her home to the members of the Twentieth Century club on Monday evening. Mrs. Edward A. Toland was the only guest. The Palace of Darkened Windows

BY MARY HASTINGS BRADLEY

Candles flared on the table, but not a figure greeted his eye. The room was darkly still; nothing stirred but the long draperies fluttering in the wind.

"Arise!" he whispered in a voice strained with excitement. "Arise! Beecher, are you here? Arise!" No voice answered. No motion revealed her. Only the candle flames danced drunkenly in a puff of air, flaunting their secret knowledge of the tenant they had lighted.

He darted to the tumbled bed and lunged aside the covers; he looked beneath it and beneath the couch; he sent a candle's light traveling about the empty whiteness of the bath. No little figure, pitifully silenced, was hidden there. The room was empty. And all the while that din sounded somewhere beyond them—running feet and strident yells.

"He's got her!" thought Billy, and first his heart leaped and then it sank. For very dear to that boy's heart had been the dream of rescuing her himself. And then he hated himself for that base envy. For what did it matter as long as little Arlee was safe, and that she was gone with Falconer, the empty room and the signs of hasty departure all spoke in witness. He wondered sharply how they had gone, and whether he had tried to follow them and then thought it was shrewder to go back the way he had come and from below to try to guard whatever descent they must make.

He turned swiftly and crossed to the door. With a hand outstretched toward it he caught suddenly, beneath all the distant din, the click of a sliding lock, and he whirled about, dropping his right hand into his pocket, to see a pale face staring at him from the other side of the bed.

"Not a move—or you drop!" said Captain Kerison. The candle light glinted on the muzzle of a gun leveled steadily at him.

"Stay where you are," the Captain added, and Billy stayed, and thru the dusk the two men stood eyeing each with a glare of hatred. But Kerison's eyes held hatred triumphant.

"So, Monsieur," said the Turk. "This is the midnight call you gentlemen pay—in the chamber of my wife."

"Your wife?" Billy gave a snort of unbelief. "She says you did not marry her!"

"When you are found dead—if you are found," the other continued, looking lovingly along the sight, "there will not even be a question into the cause. You will be carried off like carrion—carrion that prowled too near."

"Just the same you've made a mistake," said Billy in a urgent and argumentative tone. "I'm not interested in visiting any wife of yours. The lady I'm representing says you didn't marry her. But she says you did keep back most of her jewelry and she's giving the story to papers to-morrow unless I return with the stuff tonight."

He could not guess what impression this speech was making.

"I am not interested in your stories, Monsieur," the Turk returned blandly. "I am interested only in your dispatching—which I feel should be prolonged beyond the mercy of a shot."

"Look here, I'm not a common robber and you know it," said Billy.

and his voice sounded rough and angry. "I'm here to collect the property of the lady you detained here, while she was under contract in Vienna. I don't want anything more than belongs to her. She left."

"With a great deal more upon her than she brought! But am I to suppose, Monsieur, that you have made your way here, at some personal inconvenience, I should say, to discuss the generosity of my remuneration to the lady?" There was a tense silence and the Captain continued in a low, almost purring voice, "You do not appear, even now, to comprehend the thing you have done. I shall do my best to make you comprehend—and before I have finished it may be that I shall have a clearer explanation of this impulsive call. You have no notion, Monsieur, how certain things unloose the tongue—but you shall discover."

Billy saw his white teeth show in a deadly smile. Back of him a dark, heavy figure appeared and the Captain, without turning his head or moving his eyes or his gun from Billy, gave some rapid directions in Turkish and the figure disappeared. It occurred to Billy like a flash that from that secret passage where the figure had appeared there was a panel into the room on the right and that room had a door opening into the hall outside. The next moment he felt the door behind him open.

Then he pulled the trigger of that gun in his pocket in which his hand had been so lightly resting. The Captain seemed to fire the same instant, but Billy had jumped aside as he shot his own gun and he heard the bullet singing past his ears, and now, with his revolver out of his pocket, he shot again with an aim so true that the other man's right hand gave a spasmodic jerk and the revolver went spinning to the ground.

Across the room he hurled himself, springing from the onslaught of the assailant, cutting behind him, and thrusting the cursing Captain from his path, he leaped thru the sliding panel. The lock clicked home and he paused even in that moment of hammering pulses and pounding heart to fumble in the darkness to shut that other panel into the next room, remembering Fritz's warning that those locks needed a key to open them from within. The minute's delay for the key would mean many minutes for him.

He stumbled against the tiny stairs that led to the tower room, thru which Falconer had descended, but he did not dash up there; he waited for the noise of feet overhead, as if returning from pursuit, and he darted straight on thru the long, narrow, unlighted corridor, running like a hare.

At the other end he crashed against a half-open door and fell headlong down a flight of stairs. From his astonished finger the revolver went clattering and then he picked himself up, battered but unbroken, at the foot, he dared not waste a minute to go back and hunt for the gun in the dark. He was totally at a loss for directions; he had expected to find himself in the Captain's rooms, and the stairs were unknown. Now he could just make out a door ahead of him and sent it flying open, to smash in the face of an astonished black boy who went stumbling backwards.

Out went Billy's fist and caught the unprepared chin a staggering blow, and as the boy reeled back he lunged one hurried glance about the bare, lamp-lit chamber in which he found himself, the room evidently of Captain Kerison, and darted to an arsenal of weapons that glinted against the inland panels. Wrenching down the shortest scabbard he jerked out a most villainous-looking two-edged knife and gripping this practical weapon he bounded out the door, fled thru the dim hall to his right, rounded a corner, to the right again, bearing the sounds of pursuit louder and louder behind him, shot thru a vast reception hall and planned down a flight of stairs.

From the darkness below a figure rose up to receive him with a grip like iron. Billy's right arm was doubled at his side, the blade of that villainous old dagger was pressed against the yielding softness of the fellow's sash, but for the life of him Billy could not drive his knife against the human flesh. With a convulsive movement he tore himself from those gorilla arms and sent up a desperate kick, then leaped past the staggering man, and with the unused knife in his teeth, he tore at the bars of the great gate, in the wall at his left. The bars were stiff and primitive and resisted his first

strokes, and the big gate-keeper gasping for a moment against the stairs, suddenly straightened and sprang toward him.

"Here's one hero that didn't open the door 'in the nick of time!'" raved thru Billy's grimly humorous mind, as he dodged the savage thrust of a knife the man had drawn and turned and scuttled across the court with the other on his heels. Thru the arches he darted and then down into the garden, sprinting as he had never sprinted before, on, on to the southwest angles of the wall, thanking Heaven fervently, as every step outdistanced his pursuer, that the moon had evidently no gun.

The rope ladder was still there, blown free at the bottom now and waving merrily in the wind. He snatched at it, dripping his knife in his pocket, praying that the ton hooks had not become dislodged and after him came the other man hand over hand. Billy drew up his legs in a horrid fear of having them gripped or hacket and gained the top just as the other's head appeared below, his knife gleaming in his teeth.

JUST A GIRL

BY JANE PHELPS

TONY LUNCHES AT MARY'S

"I notice you have a preference for younger men," Mr. Claxton spoke, enigmatically, interrupting himself in his dictation.

"Why—what do you mean?" I asked, so surprised that for a moment I couldn't collect my thoughts. Then I remembered Tony, the night before. But why should he speak to me in that tone?

"Just what I say," I offered to take you home in my car because I thought you looked tired. And because—" he hesitated a moment, then went on, and I was refused. I understood you to say you were going home in the street car. I saw you an hour afterward in taxi with a must confess, a very good-looking young man."

His tone was disquieting, yet thru it ran something very like a hurt—as if he were disappointed in me.

"Did you see us?" I was on the car, Mr. Claxton. Tony Deland, a boy I knew at home when Dad was alive, got on the same car. I haven't seen him since I left New York. He insisted that we take a taxi so we could talk. I felt that much was due Mr. Claxton, an explanation of some sort after I had refused to allow him to take me home. But now I added in an entirely different spirit: "I had a delightful evening with him. We dined at the Blackstone and afterward took another ride in the park. Tony was so insistent upon giving me a good time that I couldn't refuse him."

Mr. Claxton's face changed during my recital of how I happened to be with Tony. It had some way lightened I was puzzled. He surely wasn't so unkind that he objected to his employees having a little innocent enjoyment out of office hours.

I don't get now what made me want to explain to Mr. Claxton that Tony had taken me to the Blackstone; had given me just the sort of a good time he would have given the Zema Stewart he had known so long ago. But my employer had been kind to me, and I had refused to be with him alone the only time he had asked me; I had refused to ride in his car, and yet he had seen

me, less than an hour afterward, riding in the park with a nice-looking, well-groomed man, a man of his own world. I felt I owed it to him as well as to myself, to explain.

I was startled by the look of something very like relief that swept over his face. What did it mean? Had he dared to think me—anything different from what I say? Why should he care anyway? I was only an employee, he my employer. Then, too, why had he looked so relieved when I had explained?

Then I had another surprise. He asked abruptly: "That young man—is he anything to you?"

"Nothing but a good friend. He is going to lunch at the shop today, and then he is going to take Mary and me out Sunday evening. He leaves for Europe on business Monday." I can't yet explain just why I told so in detail all that concerned him not at all. But his general, "Thank you, Miss Stewart," repaid me.

"I realize I have no right to question you," he had said, "and I thank you for being so frank with me. And this man who had given me back my faith in men, who had given me a position where I could hold up my head and have a little hope for the future, held out his hand and then asked me always to trust him when I needed a friend."

I gladly gave the promise, more stirred by the incident than I would have cared to acknowledge. Then we went prosaically to work as if nothing had interrupted the information which we had started to give a trader when he had questioned me.

"He came to lunch, and he the way he ate them pancakes. I guess we won't have no party Sunday night!" Mary exclaimed when I reached home. "He's a dandy fellow, ain't he? He talked to me and Tom just as if he was like me—not as if we was just plain folks that had no chance for an education or anything. And what do you think he said to Tom?"

"I am sure I don't know!"

"He said he would be honored if

Now Brush Teeth
In the new way—Remove the film

Try this new way of teeth cleaning. The test is free. It has brought to millions whiter, safer teeth. Leading dentists everywhere advise it. See the results, then learn what they mean to you.

What ruins teeth
Teeth are ruined by a film. You can feel it—that viscous coat. It clings to teeth, gets between the teeth and stays. And most tooth troubles are now traced to it.

Now we combat it
Dental science has in late years found a way to fight film, day by day. High authorities have proved it by many careful tests. Millions of people have adopted it, largely by dental advice. To careful people it is bringing a new era in teeth cleaning. These new methods are all embodied in a dentifrice called Pepsodent. And you are urged to prove it by a pleasant ten-day test.

Five important effects
Pepsodent has five effects, all of them essential to cleaner, safer teeth. One ingredient is papain. One multiplies the starch digestant in the saliva to combat starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids. In two ways it attacks the films directly. Then it keeps the teeth so highly polished that film cannot easily cling.

It differs vastly from the old-time tooth pastes, which dentists now know were wrong. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. Within a week you will know that your teeth are protected as they never were before. And you will always want your teeth to look and feel like that. Cut out the coupon now.

BAN JOHNSON PLANS TO BOLT ORGANIZATION WITH A NEW AMERICAN LEAGUE--MEETS OFFICIALS OF MINOR LEAGUES TUESDAY

NATIONAL SPORT IS SHAKEN BY LASKER GROUP MONDAY

CHICAGO—John A. Lasker, president, secretary and treasurer of the new National League, and Hank O'Day, well known to the public for years as an umpire and manager, this morning conferred over the subject of umpires for the new baseball league.

Word was waited today from Judge Kenesaw Mountain Landis, judge of the district court of the United States for Chicago, as to whether he would accept nomination of chairman of the board of control for a term of seven years at an annual salary of \$50,000. The judge had the matter under advisement and said he would make known his decision within a few days.

Chicago today was no longer the rendezvous of leading minor and major league baseball officials. President Ban Johnson and several of his friends left last night for Kansas City where the meeting of the National Association of Minor Leagues was scheduled for today. The city was left with only a few ball men who began leaving for Kansas City as soon as the announcement of the new league was made yesterday.

With the appointment of Judge Landis as chairman of the tribunal which will govern the game pending his acceptance, the organization of the new league is organized with slight modifications, chief of which was that the minor leagues should be requested and permitted to choose in association member of the board of control of their own selection.

CLUBS ON LEAGUE

The league comprises at present the Boston Braves, the Boston Red Sox, Brooklyn, Chicago Cubs, Cincinnati, Chicago White Sox, Philadelphia Phillies, St. Louis Cardinals, St. Paul Red Caps, and the Washington Senators. The league also includes the American League and three clubs of the American League who represent themselves as independent of the league.

The five dissenting clubs left today as components of the American League were Detroit, Philadelphia, Cleveland, Washington and St. Louis. President Ban Johnson of the league, leader of the fight against formation of a new league, announced before he left Chicago his determination to proceed with the organization of a new American League.

The new National League gives New York, Chicago and Boston two clubs in the same league. Brooklyn also was included, giving New York three representatives. Besides the other members (Cincinnati, Philadelphia, St. Louis, St. Paul and Washington), the league also includes the Philadelphia Phillies, National Association member, it was announced. It is the first of the five dissenting American League clubs applying for membership. The proviso was further made that failure to receive

NEW YORK—The title scrap between the Chicago Cubs and the New York Yankees for the National League pennant is now a foregone conclusion. MINOR LEAGUES ARE BITTERLY OPPOSED TO LOSKER PLAN

KANSAS CITY, Mo.—War clouds loomed dark and forbidding for the proponents of the Lasker plan for baseball reorganization when the presidents and club owners of the twenty-one minor leagues of the nation met in convention here today to vote on the proposed civilian tribunal as the supreme governing body of organized baseball.

When the committee of three, appointed by the twelve club new National League, organized yesterday in Chicago, arrived here to present the Lasker plan for the consideration of the minor leagues, indications were that it would be overwhelmingly defeated. The minor league leaders declared themselves capable of settling their own disputes and conducting their own affairs.

The committee which brought to the minor leagues the announcement of the action of eight National League club owners and the three club owners of the American League in disrupting the structure of the minor leagues in favor of a twelve club league governed by a civilian tribunal consisted of Garry Herrmann, chairman Barney Dreyfuss and Charles H. Ebbets. These representatives were prepared to offer the minors the opportunity of selecting an associate member of the national board of control under the Lasker plan.

Thomas F. Hickey, president of the American Association, David L. Fultz, head of the International League and A. R. Turner, president of the Western and Three I Leagues, recognized leaders in minor league affairs were unanimous in expressing their disapproval of the Lasker plan.

The Lasker plan, which would have the major leagues select the officials to govern as would be expected to go back to the old system from which the minors withdrew last winter, President Hickey said.

The new National League gives New York, Chicago and Boston two clubs in the same league. Brooklyn also was included, giving New York three representatives. Besides the other members (Cincinnati, Philadelphia, St. Louis, St. Paul and Washington), the league also includes the Philadelphia Phillies, National Association member, it was announced. ORIENTAL PICTURE ENTERTAINING

"The Virgin of Stamboul" at Lyric Highly Praised.

PRISCILLA DEAN STARRER

Enough Melodrama to Make It Interesting Play.

(BY ESTHER WAGNER)
THE local effect of the Universal spectacle "The Virgin of Stamboul" is largely that of picturesque grandeur. It was conceived by minds who had a highly tinted idea of Oriental existence, and as such is gorgeously carried out, with here and there a dash of melodrama to give it added flavor.

Priscilla Dean is cast as the virgin of Stamboul, a beggar girl, unveiled, whose character has remained spotless. She attracts the attention of Captain Pemberton, American soldier of fortune, who tries to arouse her spiritual nature and teach her to pray.

One day she over-steps all Turkish custom and enters the mosque, where she is eye witness to a cold-blooded murder of a young man who had tried to make love to the sheik's favorite wife. Circumstantial evidence points to the beggar girl, Sari, as the guilty one, but she lets the wicked sheik know that she witnessed his crime. To silence her, and partly because Sari is fascinating, the sheik decides to make her a member of the harem. In Turkey, you know, a girl never sees her husband until after the ceremony. So when she put her hand thru the draperies to clasp the hand of her intended, she hadn't the slightest idea who he was. Imagine her grief when she finds out it is none other than the sheik whom she so thoroughly despises.

LOVER ON THE SCENE
But right here is where the melodrama comes in. Her lover returned in time to hear of the proceedings against his loved one and arrived at the wedding—but you'll know the whole story in a minute, if you're told much more.

Miss Dean is a splendid actress with all the animation and sparkle of an American girl. Her snapping black eyes and brilliant smile, while they may not be exactly Oriental, are highly attractive and she does splendid work. More true to environment is Wallace Berry as the wealthy but wicked sheik with a choice harem.

The mob scenes are very convincing, and there are hundreds and hundreds of extras in bright striped kimonos, riding camels in the desert, who provide some thrills. The big climax, however, is the fight over the girl, a rather gruesome but highly entertaining element.

Ethel Ritchie as the favorite wife of the sheik gives a clever performance, and the others in the cast satisfactory.

For scenic effects, beautiful interiors, gorgeous raiment and general picturesqueness, "The Virgin of Stamboul" is an achievement.

Neither time nor money has been spared to make it a rarely beautiful film.

It's showing at the Lyric theatre.

MUTT AND JEFF—ON THE LEVEL, HASN'T JEFF GOT A SILLY IDEA OF HUMOR?

By BUD FISHER

BRINGING UP FATHER—

By McMANUS

SHORT SHAVINGS

An advertising manager was going home one night in a taxicab. It was late, and the man who sat next to him began to talk.

"What business are you in?" he asked.

"The advertising business."

"Is that so? I used to be in the advertising business myself. I gave it up, though, and went into the rag-and-bottle business. I was a sandwich man for a theatre for six months. Say," and he leaned over confidently, "ain't it hard work when the wind blows?"

An Irishman made his way to a country jail and asked to be allowed to see the governor.

On being ushered into that functionary's presence he begged the favor of an interview with a prisoner who was to suffer the extreme penalty of the law in the course of the morning.

"No, my man," said the governor.

CURED HIM OF RHEUMATISM

Could Not Walk—Laid Up In Bed For Five Weeks

"For the benefit of everyone who is suffering from rheumatism, I want to tell of the wonderful results I received from 'Neutrone Prescription 99', said our local townsman, Lloyd Boyd.

"Last March I was suddenly taken with severe pains in my hips and legs, and had to stop work and go home. My legs swelled to almost double their usual size and the pain was awful. I was in bed for five weeks and could hardly move."

Doctors Did Not Help Him.

"Nothing seemed to help me; doctors and medicines did no good. Some friends told me to write about 'Neutrone Prescription 99', and

she got a bottle the same day. That night I took two doses, and before midnight the pain commenced to leave. It seemed too good to be true. Within four days the swelling and pains left me and before the end of the week, I was walking. I kept right on taking 'Neutrone Prescription 99', and in two weeks was back on the job feeling as good as new."

Cannot Praise It Enough.

"Believe me, I cannot say too much in praise of 'Neutrone Prescription 99', and I want all rheumatists to know that they can be cured. My case has induced many to try it, and all report the same results."

"Neutrone Prescription 99" is the one remedy that can be depended upon to cure rheumatism; there is no need of anyone suffering another day from this dreaded disease. It does what it says it will do. Get a bottle today, and say, "Good-by Rheumatism." For sale by

Butler's Drug Stores, Baldwin's Central Drug Store, and leading druggists everywhere. —Adv.

"You cannot see the prisoner. He's to be executed in an hour and visitors are not permitted to see a prisoner on the day of execution. But what might be your business with him?"

"My birthday, sorr," answered Pat. "It's his birthday, and I was after wishing him many happy returns."

"You've got indigestion; that's what's the matter with you," said the doctor.

"Oh, that's what it is, then?" inquired the patient.

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have had noises go to your subject and get a quinine of Eucalypt (double strength), and add to it a pint of hot water, and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. A lodged nostril should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.—Adv.

"That's it. You've been eating a lot of meat, I suppose?"

"I have, yes."

"Well, now you're paying for it."

"Would your mind, telling my butcher that, doctor?"

Release for Women who Suffer

The multitude of American women who suffer terribly day after day and year after year from ills peculiar to their sex is almost beyond belief —yet there is hardly a town or hamlet in the United States wherein some woman, and often many, do not reside who have been restored to health from some of the worst forms of female ills, and often avoided operations by taking Lydia E. Pinkham's Vegetable Compound.

These Two Women Tell of Their Experience.

Carrollton, Ky.—"I suffered almost two years with female weakness. I had such pains in my back and lower part of stomach I could not lie in bed. I suffered so it seemed as though I would die, and I was not regular either. I suffered for a year and was unfit to do my housework, could only wash dishes once in a while. I read an advertisement of what Lydia E. Pinkham's Vegetable Compound had done for other women and decided to try it. After taking twelve bottles I found myself much improved and I took six more. I have never had any more trouble in that respect since. I have done all kinds of work and at present am an attendant at a State Hospital and am feeling fine. I shall always recommend your Vegetable Compound."—LILLIAN THARP, 824 South 6th Street, Carrollton, Ky.

Onalaska, Wis.—"Every month I had such pains in my back and lower part of stomach I could not lie in bed. I suffered so it seemed as though I would die, and I was not regular either.
